Please Note:

The Northern Alberta Jubilee Auditorium is a "smoke-free" facility.

The list of candidates for degrees, diplomas, and certificates appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information presented is current as of the program printing deadline, October 25, 2001.

The assistance of the Music Performance Trust Fund and the Edmonton Musicians' Association is gratefully acknowledged.

Photographs may be taken during the ceremony, but we ask photographers to ensure that aisles and stairways are kept clear. Video tape recording will be allowed in designated areas only.

Parents and guardians of small children may wish to note that the ceremony is transmitted to monitors in the lobby outside the main floor entrances to the auditorium. Please feel free to take restless children to the lobby if needed.

# Greetings to the Graduates

---

As we go through life, our progress is marked by special moments when we turn corners and new horizons open before us. This convocation of scholars celebrates the happy observance of such an important turning point in your lives.

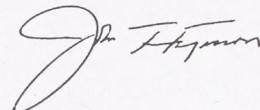

The ceremony is steeped in customs that have been passed down to us over the centuries. It is sedate, colorful, traditional, and meaningful. We hope you enjoy the experience and participate in the goodwill that permeates a day to be remembered.

By conferring its degrees, the University confirms that you have successfully fulfilled a rigorous course of study and have earned the right to enter into the collegiality of educated women and men. Be proud of what you have done, and be grateful for what the University has done for you.

Understand that the University of Alberta is not just the campus you know so well. It is everything that our graduates

of yesterday, today, and tomorrow accomplish to make our world a better place to live in. Today you join a worldwide community of alumni, a hundred thousand strong, whose support and interest is vital to the enhancement of the quality and the value of the degrees which you receive today. Keep in touch, and never forget the University that nurtured the mind you use every day. You entered to grow in wisdom. You leave the better to serve your community and yourselves.

Welcome and Congratulations.

John T Ferguson, FCA, LLD (Hon)  
Chancellor

---

Universities began as small collections of scholars who worked together to preserve and advance knowledge. Students came to study with them and, in due course, an administrative structure arose to provide system and recognition for those studies. This ancient structure is preserved at the University of Alberta, with the faculty and the students providing the core of the University's purpose: teaching and the advancement of knowledge. The faculty's task is facilitated by their colleagues in the academic staff, the Faculty Service Officers, the Administrative Professional Officers, the Librarians, and the University's dedicated support staff.

The faculty, numbering some 1,600, is responsible for creating programs of study, for teaching, and for evaluating the learning of the student body, both undergraduate and

graduate. In addition, faculty members are responsible for the scholarly reputation of the University by preserving and sharing knowledge and by pursuing new ideas and knowledge through their research.

The faculty and staff congratulate you, the graduates, on the successful completion of your present studies which is recognized by the degrees to which you are admitted today. Your achievement deserves praise. We hope your present knowledge provides a sound base for an education which will continue throughout a rewarding life. We would remind you of the advice given to graduands by Honorary Degree Recipient Tommy Banks: "Try to be a good person. You will be amazed how rewarding it is."

Congratulations from the Faculty and Staff!

---

Our lives are often marked by special milestones that leave indelible impressions on us. For students, convocation is a celebration of achievement that creates lasting memories.

I am pleased to join family members and friends in congratulating you on your convocation. It takes a great deal of dedication and commitment to successfully obtain a goal such as this. You can be proud of your perseverance and success.

Graduates of the University of Alberta are reflective of the talent and creativity that exists in our province. The skills and knowledge you have obtained during your academic career will stand you in good stead throughout your life.

On behalf of the Government of Alberta, I wish you success in all of your endeavours.

Dr Lyle Oberg, Minister  
Alberta Learning

# Order of Ceremony

November 14, 2001

## Presiding

The Chancellor  
John T Ferguson, FCA, LLD (Hon)

## Musical Prelude

Music is provided by the University of Alberta Convocation Band under the direction of Ernest Dalwood, AMus.

Vocal accompaniment is by Ms Casey Peden, a graduate of the Department of Music. Please remain seated during the prelude.

## Ceremonial Procession

Following the University of Alberta Cheer Song, the band will play a drum roll and the opening bars of the processional to signal the arrival of the Chancellor and other members of the Platform Party.

Members of the procession enter the auditorium in the following order:

Chief Marshall and Mace Bearer  
Marshals  
Chancellor  
Chair of the Board of Governors

## National Anthem

O Canada! Our home and native land!  
True patriot love in all thy sons command.  
*Car ton bras sait porter l'épée,* (With glowing hearts we see thee rise)  
*Il sait porter la croix!* (The True North strong and free)  
*Ton histoire est une épopée* (From far and wide, O Canada)  
*Des plus brillants exploits.* (We stand on guard for thee)  
God keep our land glorious and free!  
O Canada! We stand on guard for thee.  
O Canada! We stand on guard for thee.

## Convocation Address

Dr Walther Lichem

## Conferring of Degrees

### The Presentation

The Dean of the Faculty of Arts presents the candidates for degrees with these words:

"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."

### The Pledge

The President then addresses the candidates in these words:

"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"

Each candidate replies:

"These things I pledge myself to do."

## The Admission

The Chancellor then addresses the candidates in these words:

"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the glory of God and the honour of your country."

The graduates remain in their places.

## **Presentation of Graduates**

The graduates are presented individually to the Chancellor in alphabetical order according to the seniority of their faculty and the establishment date of each program. At the discretion of the Faculty, the notation "With Distinction" is inscribed on the permanent record and graduation parchment of a candidate for any degree (except an honors or graduate degree), if the candidate has obtained a grade-point average of 7.5 or higher over the last two years of the program.

Those graduates who would like a photograph with the Chancellor may meet him in the west end of the Main Floor Foyer. The Chancellor will be available for approximately twenty minutes following the conclusion of the ceremony.

# Honorary Degree Recipient

## Dr Walther Lichem

---

Dr Walther Lichem, Director for International Organizations and United Nations Affairs in the Austrian Federal Ministry of Foreign Affairs, has had an extraordinarily distinguished diplomatic career.

Educated in Austria (PhD, University of Graz) and the United States (MA, University of North Carolina) in law, economics and political science, Dr Lichem began his career as Austrian delegate to the UN Secretariat's Centre for Natural Resources, Energy and Transport. He has devoted a considerable portion of his professional life to various developmental aid initiatives. He was part of the UN Advisory Missions to Ethiopia and Senegal on water administration and was Project Manager for the UN's National Institute for Water Economics, Law and Administration project in Argentina. Dr Lichem later served as Deputy Director responsible for Austria's participation in international peacekeeping operations and as Chairman of the Council of Europe's European Campaign on North/South Interdependence and Solidarity.

Subsequently, Dr Lichem served as Consul General of Austria in Slovenia from 1976 to 1980 and as Ambassador of Austria to Chile between 1980 to 1984. During these postings he became fluent in Slovenian and Spanish, played an important role in breaking down barriers between Austria and Slovenia, and actively engaged himself in the cause of democracy during the turbulent Pinochet era in Chile by helping the democratic opposition there to organize itself effectively.

During his tenure as Austrian Ambassador to Canada from 1993 to 2000, Dr Lichem's exceptional vision, commitment and diplomatic skills resulted in the 1998 establishment of the Canadian Centre for Austrian and Central European Studies at the University of Alberta. The Centre has since hosted bilateral discussions between Science Ministers in Europe and Canada, opened numerous channels for academic exchanges between the U of A and universities in Austria and Central Europe, and launched major publications. Now well established, the Centre provides weight, direction and international presence to work in the fine arts, the social sciences, the humanities, and the pure and applied sciences.

Since returning to Austria in 2000, Dr Lichem has continued to be a firm supporter of the University of Alberta, and has worked tirelessly to give it the international recognition that it deserves.

A noted scholar in his own right, Dr Lichem has authored numerous publications on the Austrian political system, Austrian foreign policy, international river basins, environment and development and United Nations peacekeeping. His commitment to research and his excitement about scholarship are central to his vision.

A scholar and diplomat, a man of culture, vision and conviction, and a supporter of reasoned globalization, Dr Lichem is a true world citizen who has made an extraordinary impact on creating international understanding.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Walther Lichem:

John Bullokar, *An English Expositour, or compleat dictionary: teaching the interpretation of the hardest words... [with] a new and copious supply of words*. Fourth, augmented edition. Cambridge, John Field, 1667.

First published in 1616, the year of Shakespeare's death, this is only the second English dictionary and contains twice as many words as its predecessor, with particular concern for "old words growne out of use." A highly popular and influential work, and a rare volume to find in good condition, handsomely bound in full leather.

# Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

### Conferring of Degrees

#### The Presentation

*The Dean of the Faculty of Graduate Studies and Research presents the candidates for degrees with these words:*

*"Eminent Chancellor and President, on behalf of the Faculties, I present to you these scholars and ask that they be pledged and admitted to the degrees to which they are entitled."*

#### The Pledge

*The President then addresses the candidates in these words:*

*"Do you promise faithfully to observe and loyally to maintain the statutes, customs, privileges, and liberties of this, your University? Do you solemnly promise to conduct yourself in all things loyally and faithfully to the honour of your University, the encouragement of learning, and the good of your country?"*

*Each candidate replies:*

*"These things I pledge myself to do."*

#### The Admission

*The Chancellor then addresses the candidates in these words:*

*"By virtue of the authority vested in me by the Legislature of this Province, and with the consent of this University, I admit you to the degrees to which you are entitled, and invest you with all the powers, rights, and privileges pertaining to such degrees. I charge you to use them for the glory of God and the honour of your country."*

*The graduates remain in their places.*

## **Presentation of Graduates**

The graduates are presented individually to the Chancellor in alphabetical order according to the seniority of their faculty and the establishment date of each program. At the discretion of the Faculty, the notation "With Distinction" is inscribed on the permanent record and graduation parchment of a candidate for any degree (except an honors or graduate degree), if the candidate has obtained a grade-point average of 7.5 or higher over the last two years of the program.

# Honorary Degree Recipient

Dr Antoine E Noujaim

Dr Antoine E Noujaim, Chairman of the Board and Chief Scientific Officer of AltaRex Corporation and Professor Emeritus at the University of Alberta, is an academic leader in teaching and research and is recognized as a global pioneer in the field of radiopharmacy.

A prolific discoverer and disseminator of new knowledge, he is an acknowledged visionary in the development of novel products, processes and techniques and their application to the detection and treatment of cancers.

Dr Noujaim holds a BSc in Pharmaceutical Chemistry from Cairo University and a MSc and PhD (both in Bionucleonics) from Purdue University in Indiana. In 1966 he accepted the position of Assistant Professor in the Faculty of Pharmacy at the University of Alberta. He became Professor in 1973 and was named Professor Emeritus in 1992. Since 1970 he has held a special appointment as Senior Research Fellow in Nuclear Medicine at Edmonton's Cross Cancer Institute.

The founding Chairman of the division of bionucleonics and radiopharmacy in the Faculty of Pharmacy and Pharmaceutical Sciences at the University of Alberta, Dr Noujaim established the first North American graduate program in radiopharmaceutical sciences. His efforts resulted in a number of firsts including the acquisition of the first positive ion accelerator and nuclear reactor (SLOWPOKE) in a Faculty of Pharmacy, and the granting of the first PhD in radiopharmacy on this continent. A large number of graduate students and post-doctoral fellows have since been trained in his laboratory, many of whom now hold senior professional and academic positions in Canada and the United States. More than 500 similar laboratories were established following the lead of Dr Noujaim's pioneering efforts in Canada.

As researcher and principal investigator he has received contracts and grants exceeding \$12 million over the past eight years, including a \$5.5-million grant from Industry, Science and Technology Canada.

Dr Noujaim has served numerous professional organizations, contributed to major scientific organizations and served on several editorial boards. He is the author or co-author of more than 170 scientific publications, more than 200 abstracts and several patents. He has received numerous awards including, in 1987, the McNeil Award, Canada's highest pharmaceutical research award.

Technology transfer has been a large part of Dr Noujaim's work. His first important development was of technology to measure secondary oil recoveries through underground radioactive traces. This was adapted by the Province of Alberta in the early 1970s and was subsequently implemented through the entire industry. His second major development was in the biotechnology field. A builder of internationally competitive commercial entities, he is most clearly recognized for co-founding Biomira and founding Biomira Research Inc and AltaRex Inc, three biotechnology enterprises devoted to cancer research. Founded in 1995, AltaRex Inc is now the world-leader in the use of anti-idiotype induction technology for the therapy of cancer. This technology, discovered by Dr Noujaim, enhances the human immune system's ability to produce a highly specific and effective anti-tumor response. Its patent rights are pending in approximately 80 countries.

Mentor, scientist, builder, entrepreneur, visionary and philanthropist, Dr Noujaim's unflagging personal commitment to cancer eradication and his quiet dignity lead by example, both in spirit and deed. The effect of his work on society at large is immeasurable.

The University of Alberta Senate is donating the following volume to the Bruce Peel Special Collections Library to commemorate the awarding of an honorary degree to Dr Antoine E Noujaim:

Stephen Crane, *The Red Badge of Courage*. London, Land Press, 1988. With 11 illustrations from actual Civil War photographs. No 77 of a limited edition of 140 copies.

Crane's searing 1895 novel of the American Civil War is one of the most cherished of American novels. This splendid and beautifully printed limited edition has a unique binding of goatskin, parchment and vellum with coloured dyes by British master binder Stephen Conway which reflects the seriousness and solemnity of war and is a work of art in itself.

# Graduates

The list of candidates for degrees, certificates, and diplomas appearing herein is subject to such corrections, with respect to additions, deletions, and changes, as may be necessary. The information as presented is current as of the program printing deadline. Graduates attending the ceremony are presented to the Chancellor alphabetically. The winner of the most prestigious award in each faculty, if attending, is presented first.

# University of Alberta Alumni Association

## Because your degree is only the beginning...

As a graduate of the University of Alberta, you are part of the University's worldwide alumni family, now more than 175,000 members strong, playing leading roles in their communities and in the world.

Internationally known U of A alumni include former Canadian Prime Minister Joe Clark; former World Conservation Union President Jay Hair; Nagoya University founder, the late Yuichi Kurimoto; former Alberta Premier Peter Lougheed; Nobel Prize winning physicist Richard Taylor; and the founders of the Spruce Meadows international equestrian facility, Margaret and Ronald Southern.

Show your pride in your alma mater and take advantage of the many alumni events, programs and services available. As an alumnus, you will receive the University's award-winning alumni magazine,

*New Trail*, free of charge for life — just let us know when you move. We also help organize reunions, provide exclusive services, and keep you in touch with your fellow graduates and your alma mater. Head online for your free permanent e-mail forwarding address, special on-line services, and information on all our programs.

## International Branches of the Alumni Association

While approximately forty percent of our graduates live in Edmonton and nearby communities, the majority live, work and make their impact felt in countries in all corners of the globe. There are active alumni branches in more than fifty communities around the world, providing social and career contacts to graduates moving to a new area, and new

branches are always being formed. If there is a branch in the city where you will be establishing roots, be sure to contact the representative listed. If not, contact the Office of Alumni Affairs to see if there are plans for one — perhaps you would like to help get it started! Contact can be made with these representatives through the Office of Alumni Affairs.

# The University Coat of Arms

---

On November 15, 1909, a motion by the faculty recommended to the Senate the adoption by the University of the provincial coat of arms, with the addition of an open book above the shield and the motto *Lux et Lex*; the words "University of Alberta" were to be attached as might seem fit. The present motto was substituted in January 1911 for the one originally proposed. In 1950 the representation of the coat of arms was altered to conform better to the principles of heraldic design but these arms were never actually registered.

In 1994 a new coat of arms incorporating a number of traditional symbols associated with the University or the Province, or with learning, was officially granted by the Canadian Heraldic Authority. In non-technical language, it consists of the following elements:

**Shield:** a representation of the topography of Alberta (wheat fields, hills, rivers, and the Rocky Mountains) derived from the provincial coat of arms, and a book symbolizing learning.

**Crest:** a Great Horned Owl, the provincial bird and a traditional symbol of wisdom.

**Supporters:** a pronghorn, taken from the provincial coat of arms, and a golden bear, long the University mascot, standing on a mound of wild roses, the floral emblem of Alberta.

**Motto:** *Quaecumque vera* ("Whosoever things are true," Philippians 4:8)

The arms are copyrighted and may not be used without permission of the Board of Governors. The name of the University is similarly protected.

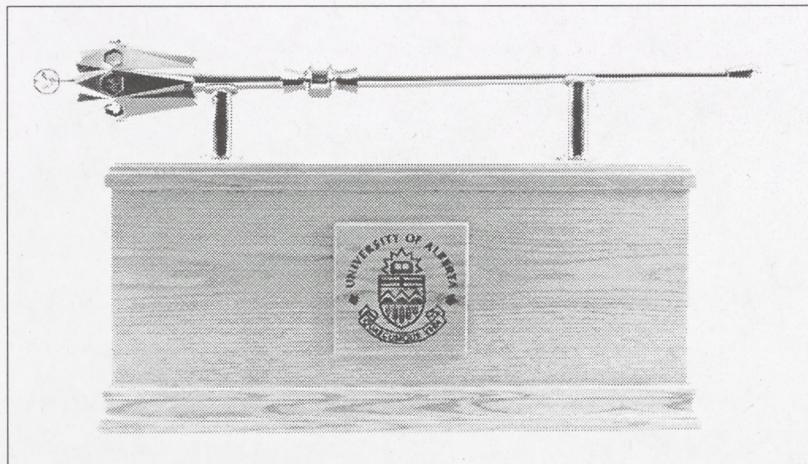

# University Mace and Ceremonial Chairs

The University of Alberta Mace was designed and crafted specifically for the University as a gift from Dr Francis Phillip Galbraith, Chancellor of the University of Alberta from 1964 to 1970. Michael Galbraith presented the Mace on behalf of his father on May 26, 1970.

Among its elements are the Star of Saint Thomas Aquinas, the Patron Saint of Scholars; the Wild Rose of Alberta; the Maple Leaf; and the separate charges which make up the University's Emblem. The University motto "Quaecumque Vera" ("Whataeversoever Things Are True" Phil 4:8) encircles the staff. The Mace is made of sterling silver which was rhodium plated after the insertion of the various enamelled shields which make up its elements. A special electroplate process was used to apply 24 karat gold to other parts of the Mace.

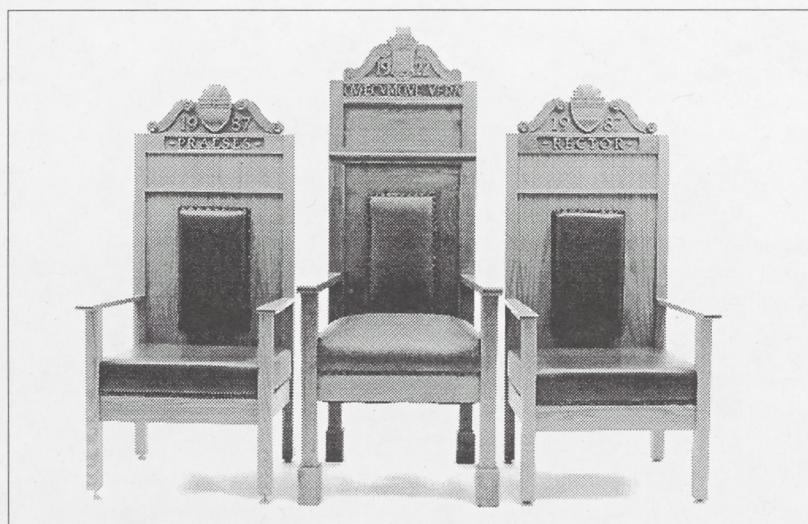

It was intended that the Mace should be modern in appearance but with medieval origins. The preponderance of visual weight at the top of the staff and the rather complex section through the metalwork at this point are reminiscent of the use of the mace as a weapon, defensive or aggressive.

The Mace is carried before the Chancellor, or Vice-Chancellor, in procession and rests on its stand in full view of the assembly during Convocation. Centuries ago the Mace was a symbol of authority over life and death. Today it represents power – but the power of knowledge and the importance of the University in the community.

The Chancellor's Chair was presented to the University of Alberta as a gift from the 1922 graduating class. It is made of solid oak with a padded leather back and seat. Above the padded-leather back is carved the University motto "Quaecumque Vera" together with the class year, 1922, and the University emblem.

In 1987, the family and friends of Dr Charles Malcolm Macleod, Chair of the Board of Governors from 1950 to 1966, presented a memorial gift to the University of an oak stand for the University of Alberta Mace and two additional chairs for use by the President and the Chair of the Board of Governors at Convocation.

# History of Convocation

In the eleventh century, a new vitality quickened all aspects of the civilization of Western Europe. The creative forces thus unleashed soon found expression in new institutions, and of these the university bids fair to be the most enduring. The modern university is the lineal descendant of the university of the Middle Ages. Its purposes and organization, even much of its ceremonial, are medieval in origin.

The medieval university was originally called a *studium generale*, that is, a place of learning to which teachers and students from anywhere resorted. The first *studia* were at Salerno, Bologna, and Paris. These came into existence spontaneously and developed through the twelfth century as the needs of the time and their inner necessities dictated. In the thirteenth century these spontaneous associations crystallized into guilds or corporations endowed by Church and State with specific privileges which guaranteed the internal autonomy necessary for the vocation of study. To these corporations was increasingly applied the word *universitas* denoting the entire group of those responsible for the transmission of higher learning and the pursuit of knowledge.

By the beginning of the fourteenth century, two forms of university organization had appeared. At Bologna, primarily a higher school of canon and civil law to which came men experienced in ecclesiastical and secular administration, the control of the *studium generale* passed to the students; hence Bologna was a *universitas scholarum*. On the other hand in Paris and Oxford, whose dominant faculty was the Faculty of Arts, the *studium* emerged under the direction of a guild of teachers, a *universitas magistrorum*. Through its own officials, notably the chancellor (once symbol of external control and by now of internal autonomy), the guild of teachers developed its courses of instruction, administered its own affairs and admitted to its company only those who had met its intellectual standards. The University of Alberta stands in the tradition of Paris and Oxford.

Originally the goal of the medieval student was certification by the guild of teachers that he also was qualified to teach (the *licentia docendi*). With the passage of time the student's progress through the curriculum was marked by ceremonies which signified his successful attainment of a certain level (*gradus* or in modern language, degree) of competence. The Bachelor had completed his apprenticeship in the Faculty of Arts. The Master was now qualified to teach in that Faculty and was thus incorporated into the *universitas magistrorum*. The Doctor was one who, having obtained the mastership, had

successfully completed the curriculum of one of the "higher" faculties (in the Middle Ages, law, medicine, and theology) and was now qualified to teach in those faculties. Inevitably the degrees of the *universitas* did more than admit their holders to the teaching profession. They served the wider social purpose of demonstrating their holders' fitness to serve the entire medieval community.

Today's ceremony stems from the medieval tradition. The procession of the guild of teachers, whose solemn assembly, or convocation, is the modern equivalent of the medieval *magna congregatio* of all faculties, is lead by the Chancellor and the Chief Marshal carrying the mace, the symbol of the University's corporate authority. The academic gowns, hoods, and caps, once the sober, disciplined dress of secular clergy and teachers, declare in their various designs and colours the academic qualifications of the Faculty. The citations and presentations by the Faculty to the Chancellor attest to him and to society the degree of proficiency attained by the students of the University. There follows a visible and public act whereby the *universitas magistrorum*, acting through its Chancellor, confers upon the students the appropriate degree. It is the act, not a certificate, which constitutes the validity of the degree bestowed. More, the formula, "I admit you" and the placing of the students' hands within the hands of the Chancellor and his associates, bind the students in the appropriate degree to the *universitas magistrorum*. The students thereafter bear for all time the mark of their association with this University. They have received what the University has been and presently is. Because they bear in themselves the promise of the future, they are what the University hopes to be. Despite its solemnity, convocation is a joyous occasion.

The history of academic dress reaches far back into early days of the oldest universities. A statute of 1321 required that all "Doctors, Licentiates, and Bachelors" of the University Coimbra wear gowns. In England, in the second half of the fourteenth century, the statutes of certain colleges forbade "excess apparel" and prescribed the wearing of a long gown. It is still a controversial question as to whether academic dress finds its sources chiefly in ecclesiastical or in civilian dress. Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head until superseded for that purpose by the skull cap. This was itself displaced by a headdress more or less like one or another of those now recognized as "academic." (The mortar board—the hard, square cap commonly used as academic headdress today—evolved from

the softer, more flexible "square cap" introduced in England about 1490. It is named for the square board on a handle used by stone masons for holding the mixed mortar to be applied to walls.) Both Cambridge and Oxford have made academic dress a matter of university control to the extent of even its minor details and have repeatedly issued revised regulations. In Laudian days in Oxford it was prescribed that any tailor who departed from authorized design "even by a nail's breadth" in the making of any article of collegiate costume was to be punished by the vice-chancellor of the university.

Academic dress at the University of Alberta generally follows the prescription of Cambridge University in the design of the gown, and that of Oxford University in the design of the hood. The following page provides a detailed description of the academic dress at this institution.

In addition to the apparel worn by holders of degrees conferred by the University of Alberta, a collection of apparel specific to particular offices has also been developed. The President of the University wears a green gown faced with gold braid trim and lining and a green cap with a gold tassel. The Chancellor and Chancellors Emeriti wear gowns of teal blue with silver trim and black caps with silver tassels. The gowns of the senior officials bear an embroidered crest of the University. University Governors and Senators wear stoles bearing the crest of the University over their gowns: gold for Governors and green for Senators. The University Registrar wears a green gown with gold trim on the sleeves.

Graduates and staff of the University of Alberta who wish to purchase their own academic apparel are invited to contact the Convocation Officer in the Office of the Registrar and Student Awards.

# Academic Dress

All undergraduate and master's degree gowns are the customary Cambridge shape, i.e., a gown of black material falling below the knee with full sleeves cut to the elbow and terminating in a point. Hoods are made in the Oxford pattern of spruce green material. The Bachelor's hood has a border three inches wide of the color distinctive of the Faculty as noted below. The Masters' hood has a full lining of the color distinctive of the Faculty also noted below. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

## Doctorate Degrees

Doctors' gowns (PhD, DMus, and EdD) conform to the Intercollegiate Code in design. They are made of black material and the velvet trim on the sleeves is Philosophy Blue for the PhD and DMus, and Education Light Blue for the EdD. Doctor's hoods conform to the Intercollegiate Code in shape, size, and color. They are made of black material to match the gown, and have a full lining of gold satin with a six-inch green satin chevron. The velvet trim distinguishes the two degrees and matches the velvet trim on the gown's sleeves. There is a narrow green piping where the gold lining joins the black material. Mortarboards are the standard black trencher shape with black tassels, which are worn forward and to the left.

## Honorary Doctorates

Honorary Doctors of Laws (LLD), Letters (DLitt), and Science (DSc) wear a scarlet robe faced with white silk. Hoods are made in the Cambridge form of scarlet silk with a full lining of white silk. Caps are black velvet with a gold tassel.

If you can, please share this program with a companion. Then, if you do not take it home, please leave it (in good repair) on the table outside the doors as you exit the auditorium. This will help us ensure that someone else can use it on another day of Convocation, and subsequently conserve paper.  
Thank you for your assistance.
